Mr. M.O'Laughlin, Chairman-Dear Sir: You requested a written opinion to be submitted to the county Board on the question "whether the conpensation to be given to overseers of the poor in the several towns of this county is a county charge,"

My answer is as follows: This county is under township organization, and the care and support of the poor is a county and not a town charge. Such care and support might, under the law as it now exists, properly be placed on either body, but as stated in La Salle county it devolves on the county at large. The supervisors, in their respective towns, are made by law ex officio overseers of the poor. The duty of looking after the poor in their towns is entrusted to them. While thus acting they are not rendering services to their town in those counties where the poor are supported by the county at targe, and consequently cannot receive pay from their towns. Nor are they entitled to pay from the coun-ty for such services, for the simple but cose well settled that unless some provision is
